| Dimension        | Status Quo<br>(Traditional Support) | Aaghosh<br>(The New Paradigm)                     |
|------------------|-------------------------------------|---------------------------------------------------|
| Approach         | Reactive (Treating symptoms)        | Preventive (Building resilience)                  |
| Customization    | Generic, one-size-fits-all advice   | Highly Personalized to the child's unique profile |
| Cost             | Prohibitive hourly rates            | Scalable, Accessible SaaS model                   |
| Availability     | Appointment-bound and waitlisted    | 24/7 AI Companion                                 |
| Cultural Context | Western-centric psychology          | تاوینکا-سدیں, culturally native understanding     |

The market lacks a scalable solution that meets parents where they are, both economically and culturally.
